RETRACTED: UNIVERSALITY OF AFFINE SEMI-GROUPS ON SUPERCYCLICITY OF THE SEQUENCE OPERATORS

J. SEMIGROUP THEORY APPL.

Copyright © 2019 the author(s). This is an open access article distributed under the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited.

This article [1] has been retracted due to an accusation of plagiarism. It was found to contain a substantial amount of contents from a previously published article “S. Shkarin, On supercyclicity of operators from a supercyclic semigroup, J. Math. Anal. Appl. 382 (2011), 516–522”. Although this article was cited as reference 9 in [1], it is believed that sufficient evidence exists to support this accusation. We apologize to the readers that this was not detected before publication.
